

220 bar 19 l/min

Speedclean 25Xe

AIR POWERED HIGH PRESSURE CLEANER
Rugged, simple and reliable

- ▶ The smallest, toughest, lightest, safest pressure washer you can buy
- ▶ Professional cleaner with low weight and robust design
- ▶ Lubricated water seals and low speed means low maintenance
- ▶ Cold and hot water up to 80°C
- ▶ Cleans much faster with less use of chemicals
- ▶ Easy to use and maintain

Convenient - Efficient - Reliable

- Here is the professional cleaner that's easy to use. You just have to connect air, hot or cold water, and you are ready to go.
- With its high pressure this light weight cleaner will remove fast, even the most stubborn dirt.
- Turn on the spray and the pump starts. No unnecessary wear and air consumption or complicated automation. Together with durable materials such as acid resistant steel valves, you'll have a trouble-free cleaner that will serve you for years.
- When you need to clean oily surfaces, you just connect to the hot water faucet instead of using chemicals. Speedclean can handle temperatures up to 100°C.
- Long time service on-board ships and offshore oil-platforms has demonstrated dependability and high quality where only the best is good enough!
