

# Speedclean 25Xa

II 2 G Ex h IIB T6...T5 X

220 bar

AIR POWERED HIGH PRESSURE CLEANER  
*Rugged, simple and reliable*

- ▶ The smallest, toughest, lightest, safest pressure washer you can buy
- ▶ Professional cleaner with low weight and robust design
- ▶ Lubricated water seals and low speed means low maintenance
- ▶ Cold and hot water up to 80°C
- ▶ Cleans much faster with less use of chemicals
- ▶ Easy to use and maintain
- ▶ Explosion proof

# Convenient - Efficient - Reliable

- Here is the professional cleaner that's easy to use. You just have to connect air, hot or cold water, and you are ready to go.
- With its high pressure this light weight cleaner will remove fast, even the most stubborn dirt.
- Turn on the spray and the pump starts. No unnecessary wear and air consumption or complicated automation. Together with durable materials such as acid resistant steel valves, you'll have a trouble-free cleaner that will serve you for years.
- When you need to clean oily surfaces, you just connect to the hot water faucet instead of using chemicals. Speedclean can handle temperatures up to 80°C.
- Long time service on-board ships and offshore oil-platforms has demonstrated reliability and high quality where only the best is good enough!

## TECHNICAL DATA

### *Speedclean*

### **25Xa**

Pressure ratio	25:1
Pump pressure	0-220 bar
Pump capacity	0-19 l/min
Water temperature	0-80 °C
Pressure with 8 bar air pressure	185 bar
Motor effect (max.)	7.5 kW
Weight	28 kgs

Speedclean 25Xa is delivered complete with galvanized and painted steel frame, air muffler, lubricator, manometer, 10 metres 3/8" high pressure hose, spray gun, lance and stainless steel nozzle.
